

ROP LAZIO REGION ESF 2007-2013

GENERAL DIRECTORATE FOR VOCATIONAL TRAINING AND WORK

Vocational Training Measures within Lazio Region

2009-2010

21 May 2010

Premessa

The current document presents the activities undertaken by the Regional Directorate for Vocational Training ESF and other co-financed measures (now Directorate for Vocational Training and Work) within 2009-2010. The document includes a synthesis of programmed measures within the indicated period proving a complete list and the indication of the objectives and financial amount of each single measure. The activities have been classified on yearly basis and where possible, by type of measure. The measures indicated in the current document are financed by the ESF, within the ROP Lazio ESF 2007-2013.

Specific interventions carried out within 2009

In 2009, the following measures were carried out, targeted at sustaining the continuous training process.

Descrizione	Importo	Asse	Obiettivo dell'intervento
Public notice for the establishment of a permanent Regional Observatory for continuous training	€ 1.900.000,00	Priority Axis I "Adaptability"	The measure is aimed at individuating and monitoring the real training needs within the regional framework, with the purpose of identifying and networking all entities/individuals that, under different names and different funds, are operating as authorities in charge of programming and financing interventions of continuous training.
Public notice for the strengthening of workers' competences within the environmental and social sustainability framework	€ 2.850.000,00	Priority Axis I "Adaptability"	The intervention is specifically targeted at training technical profiles with competences in the areas related to environmental sustainability, eco-compatibility, enterprise's social responsibility and, in general terms, profiles which are able to transfer, within the enterprise, the relevant competences and praxis targeted at the promotion of responsible and sustainable production schemes.

Specific interventions carried out within 2009

For the purposes of promoting employability, the Lazio Region carried out the following interventions:

Descrizione	Importo	Asse	Obiettivo dell'intervento

Specific interventions carried out within 2009

In the framework of interregional initiatives the Directorate carried out the following initiatives.

Descrizione	Importo	Asse	Obiettivo dell'intervento
Public notice for assistance to the reorganization of working processes and optimization of resources and development of service quality to the Rome Superior Court	€ 650.000,00	Priority Axis V "Inter-regionalism and trans-nationality"	The measure follows up the accession of Lazio region to a more complex interregional project called "Best practices diffusion within the Italian offices". With this initiative, the Lazio region promotes the improvement of the organizational process and services within the Rome Superior Court.
Public notice for the selection of projects of training and mobility in the live show industry sector – "Sipario"	€ 4.000.000,00	Priority Axis V "Inter-regionalism and trans-nationality"	The measure was conceived within the framework of an interregional/transnational project called "Sipario", targeted at carrying out actions of interregional and transnational cooperation within the sector of live show industry.
Public notice for an integrated system of high profile training (parts I and II)	€ 1.500.000,00	Priority Axis V "Inter-regionalism and trans-nationality"	The measure consists on the dispatch from the Lazio Region of training vouchers for participating to courses included in the Interregional Catalogue of High Profile Training, qualified as Masters non Masters Degrees, specialization and retraining courses.

Specific interventions carried out within 2009

In terms of **anti-crisis measures**, the Region has entrusted to the Rome Province two target oriented projects:

- The project of "Training, measures of income support, integrated interventions for employment and inclusion, targeted to workers and unemployed people over 40 and belonging to the weak categories", for a max budget of € 20.000.000,00, drawing on Priority Axis I "Adaptability", Priority Axis II "Employability" and Priority Axis III "Social Inclusion". The project targets at setting up a complex system of activities which can respond to the problems linked to employment and promote professional growth and social integration of disadvantaged individuals.
- The project of "Training and promotion of general competences: towards an active citizenship pedagogy", for a total budget of € 1.500.000,00, drawing on Priority Axis III "Social inclusion". The project targets at improving the knowledge, and sharing the existing practices and instruments among the public and private operators of the system, the subject matters relevant for the pedagogy of an active citizenship, as well as production and testing of modules and innovative didactical subsidies.

Moreover, the Region has promoted two target oriented projects to be managed by the Province of Latina, specifically related to:

- Interventions targeted at contrasting the economic and financial crisis effects (€3.862.400,00);
- Interventions targeted at the evaluation and improvement of compulsory training courses (€ 808.000,00).

Specific interventions carried out within 2010

Within the first months of 2010, the following measures have been carried out, specifically drawing on ROP Lazio ESF Ob. CRO 2007-2013. The following public notices have been therefore specifically published:

Descrizione	Importo	Asse	Obiettivo dell'intervento
Public notice for the creation of two Regional Houses for the live show industry sector	€ 10.000.000,00	Priority Axis II "Employability" and Priority Axis III "Social inclusion"	The measure is targeted at the establishment, within the regional territory, of two "Regional houses for the live show industry sector (theater focused)". The aim of the houses is representing a place where young artists can meet in order to build up on the development of professional competences brought on by well known artists in the artistic world, with the purpose of networking, strengthening young artists employability and self-employability and supporting social inclusion of the disadvantaged categories.
Public notice for carrying out training interventions in the commercial sector	€ 5.000.000,00	Priority Axis I "Adaptability"	The Region intends to promote the carrying out of vocational and innovative training interventions, for all the "management" and "operating" staff working in the commercial centers or commercial areas within the regional territory, interventions to be developed on the work place and during the working hours in a "mobile laboratory", endowed with the latest didactical and multi-media technologies.

Specific interventions carried out within 2010

Descrizione	Importo	Asse	Obiettivo dell'intervento
